

Luck Superstitions

Four Leaf Clover- The four leaf clover goes all the way back to biblical times. It is believed that when Eve was cast out of the Garden of Eden, she took a four leaf clover with her to remind herself of the lushness of the paradise. Since then, it has become a symbol of good luck and good fortune. Some people believe that each of the four leaves on this lucky charm has a specific meaning- faith, hope, love and luck.

Horse shoe- The horse shoe superstition is a superstition that many believe, brings good luck to them. The horse shoe is made from metal, and the first forms of metal were found in meteorites. Of course, these were

believed to have fallen from the heavens above. So they believed that the horse shoe would give them holy protection. Now, we call it good luck.
