

Metcalf Interview

A few weeks back we interviewed Mrs. Metcalf. Here's what we said:

1. When did you get interested in teaching?

I became interested as a kid because I have an uncle that was principal at my elementary school. As a senior in high I worked at a daycare and it clicked, and here I am 33 years and counting.

2. Do you like teaching a mixed-grade class? Why?

I do not like teaching a mixed-grade class. I absolutely LOVE IT! Because we have created something special in RM. 138.

3. Did you come up with the starlets?

The starlets were formed about 4 to 5 years ago by our former principal Mrs. McCabe. She wanted the students to take a leadership role in our building.

4. Do you think your class is successful?

My students strive for excellence. Their success is obvious. I am very proud of my students individually and collectively.
